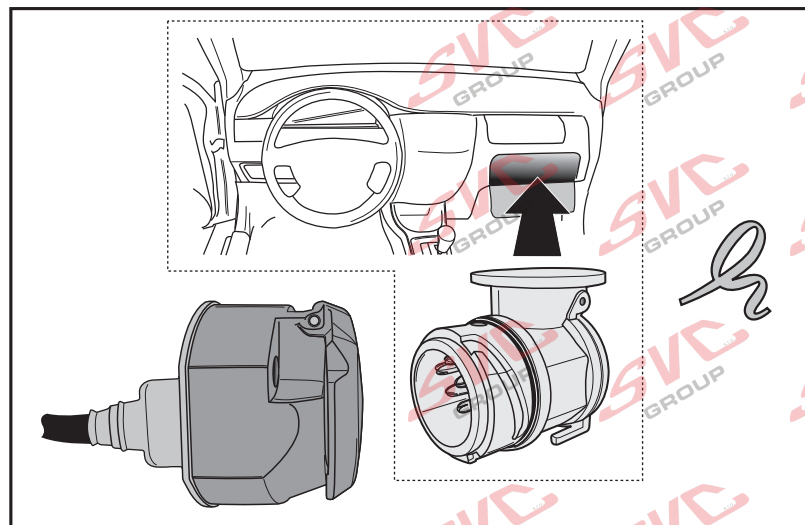

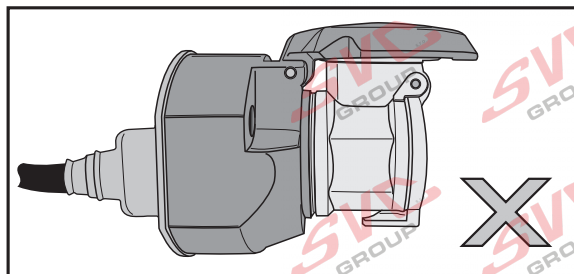

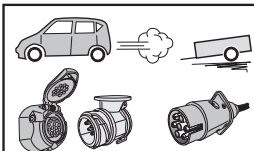

Diagram illustrating the location of the fuse box in the engine compartment and the process of changing a fuse.

The diagram shows the fuse box located in the engine compartment. A close-up view shows the fuse box cover being removed. An inset shows a hand inserting a fuse into the box. A detailed view of the fuse box shows slots numbered 19, 20, 21, and 22, with slots 20 and 21 labeled '15'.

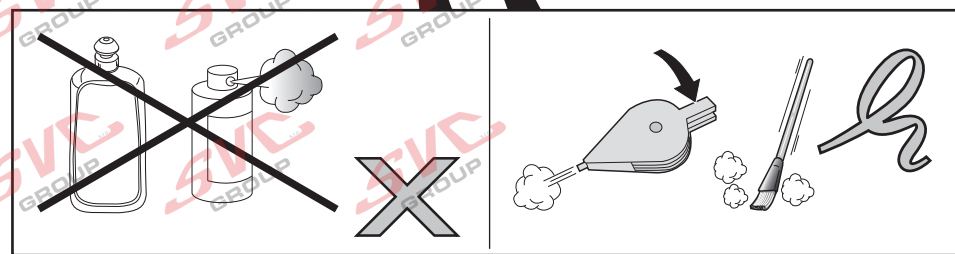

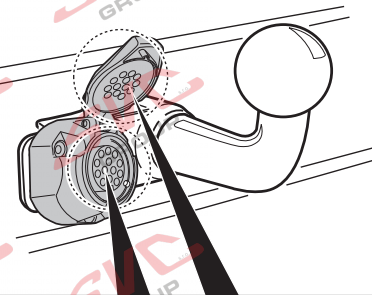

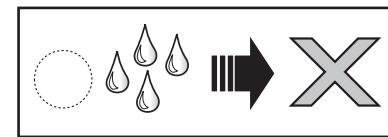

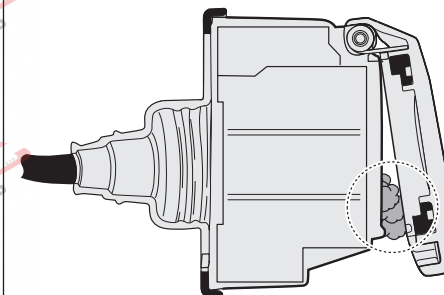

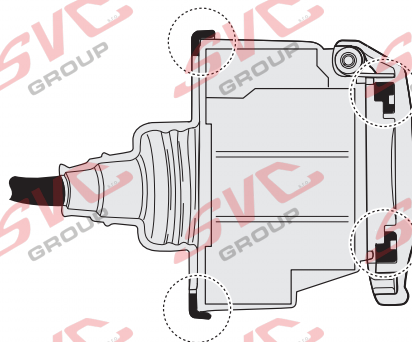

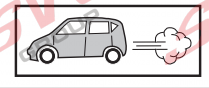

Diagram illustrating the steps to change a fuse:

1. Remove the fuse cover.
2. Remove the old fuse and insert the new one. (Note: The new fuse should be inserted with the correct orientation, as indicated by the 'click' sound and the '15' label on the fuse box cover).
3. Click the cover back on.
